## FRISCO ARRANGES TO TAKE CARE OF LARGE ENGINES

A large force of workmen are engaged in preliminary work for installing a new and much larger turntable at the Fort Smith Frisco shops. The table will be placed in the pit now occupied by the present turntable, but the pit will be greatly enlarged. The change is being made owing to the recent assignment of larger engines at the shops at Fort Smith. The small turntable is too short to accommodate the larger locomotives. As soon as the improvements are completed more engines of the heavier type will be cared for at the Ft. Smith shops.

## Cough Medicine for Children

The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. P. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children, and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by all druggists.

## An Ideal Cough Medicine

"As an ideal cough medicine I regard Chamberlain's Cough Remedy in a class by itself," says Dr. R. A. Wiltshire, of Gaynesville, Ind. "I take great pleasure in testifying to the results of Chamberlain's Cough Medicine. In fact, I know of no other preparation that meets so fully the expectations of the most exacting in cases of croup and coughs of children. As it contains no opium, chloroform or morphine it certainly makes a most safe, pleasant and efficacious remedy for the ill it is intended." For sale by all druggists.

## WOMAN'S HOME COMPANION FOR MARCH

At the very moment when every woman in the country is thinking of "spring clothes" the Woman's Home Companion appears as a big fashion number and contains a remarkable lot of information as to what will be worn, and why. Every important item connected with the latest thing in dress is treated in a careful and instructive manner. Articles on French hats and French novelties are only a small part of the general scheme.

But the helpfulness of this magazine is not confined to the question of clothes. Etched metal work, a new fad; the making of bead bags; the building and furnishing of houses, and the many sciences that go to make up a well-ordered home are all in the usual excellent departments.

The fiction attains a high standard. Myra Kelly contributes a vivid Settlement House story. Fannie Heaslip Lea, James Oppenheim and Mary Heaton Vorse each have an excellent tale to tell, and "The House of Healing," by Juliet Wilbur Tompkins, promises to prove one of the best serials of the year.

## JURORS AND NEWSPAPERS

During the selection of a jury in a Missouri court a few days ago one of the lawyers, with the evident purpose of challenging, asked a venireman if he had read accounts of the case in the newspapers. The question is a familiar one, and may be heard in many courts when there is a criminal case on trial that has aroused a good deal of interest in the community. The Missouri judge in this instance would not permit the venireman to answer and turning to the lawyer said: "What's the difference if he has read the newspapers? He'll make the better jurymen. To say that a man ought not to serve because he has read the newspaper account is saying in effect, that a jury of intelligence is objected to. That is not justice; neither is it law."

It sometimes occurs that a jury of intelligence is not wanted. A tricky lawyer with a poor cause will endeavor to get on the jury as many ignorant men as he can, because ignorant men are the most easily moved by specious pleadings. The position taken by the Missouri judge might well be assumed in other courts. —Savannah News.

## MONUMENTAL TALKS.

The agent for non-resident firms tells you what bargains he is furnishing in monuments; how in some way he is saving a deal of freight selling work a wholesale, owning large manufacturing plants, and possibly owns a quarry or two.

But possibly he forgets to tell you what commission or salary he is getting for selling work, what his traveling expenses are per month; also that he would be of no use to the firm he works for unless he made them a profit in addition to these extra expenses; that in any saving of freight or some other expense it is the local dealer who has the advantage; that the best satisfaction and best terms in buying monuments are obtained from buying direct from some reliable dealer and not through agents; that the best work is not obtained from the "cheap John" talker, and cheap work is dear at any price.

We do not employ agents. Cramer's monuments are dependable in every way. Give us a chance to show you what he can do, then if for any reason you do not think to you best interests to patronize the home dealer we will be glad to give you the names of other reliable dealers. It is not necessary to buy through agents and pay the extra salary or commission.
